DETAILED ACTION

Election/Restrictions

In the Response to Restriction Requirement dated June 03, 2005, Applicant has elected the invention of Group I (claims 1-5), drawn to a device. Because Applicant did not distinctly and specifically point out the supposed error in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). Accordingly, claims 6-10 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 35 § 1.142(b) and MPEP § 821.03. Applicant has the right to file a divisional application covering the subject matter of the non-elected claims 6-10.

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The title of the invention has been changed as follows:

–NONVOLATILE MAGNETIC MEMORY DEVICE--.

In claim 1, line 26, "... the top surface of the tunnel magnetoresistance device ..." should read **–... a top surface of the tunnel magnetoresistance device ...--**, and in claim 5, line 7, "... the side surface of the tunnel magnetoresistance device ..." should read **–... a side surface of the tunnel magnetoresistance device ...--**.

This application is in condition for allowance except for the presence of claims 6-10 non-elected without traverse. Accordingly, claims 6-10 have been canceled.

Allowable Subject Matter

Claims 1-5 are allowed.

The following is an examiner's statement of reason for allowance:

Claims 1-5 are allowable over the prior art of record because the prior art of record does not teach or render obvious a nonvolatile magnetic memory device comprises a tunnel magnetoresistance device formed on a first wiring through an insulating film in which a lower surface of the tunnel magnetoresistance device is electrically connected to a first connecting hole through a second connecting hole which is formed in a second opening portion made through at least the insulating film and the first wiring and is electrically insulated from the first wiring, and in combination with all other features as recited in independent claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
